SUMMARY

Civil Engineer with a B.Sc. from the University of Asia Pacific (CGPA: 3.52/4.00) and professional experience in structural analysis, design, and site inspection across both industrial and residential projects. Proficient in ETABS, STAAD Pro, AutoCAD, and Revit. Research experience includes seismic performance assessment and RC structural retrofitting, with a paper presented at an international conference (ICERIE 2025). Seeking opportunities to deepen my expertise in advanced engineering through postgraduate study, with a focus on contributing to safe and sustainable urban infrastructures.

ACADEMIC QUALIFICATION

Degree	Institution	Subject/Group	Results	Passing year
BSc in Civil Engineering	University of Asia Pacific	Civil Engineering	3.52/4.00	2024
HSC	B C I C College	Science	4.42/5.00	2019
SSC	Monipur High School	Science	5.00/5.00	2017

PROFESSIONAL EXPERIENCE

Junior Structural Engineer

November 2025 – April 2026

Yaqeen Engineering Limited, Dhaka, Bangladesh

- Performed structural analysis and design of industrial buildings and steel structures using ETABS and STAAD Pro.
- Carried out Detailed Engineering Assessment (DEA) and structural retrofitting of existing RC buildings.
- Contributed to the design and analysis of private multi-storied residential apartment buildings.
- Prepared structural and technical drawings using AutoCAD.
- Conducted on-site inspections for both industrial and residential construction projects.
- Participated in infrastructure project planning and inter-discipline coordination.

Junior Engineer

October 2024 – August 2025

Thikana Living & Consultant Ltd, Dhaka, Bangladesh

- Assisted in the structural analysis and design of multi-storied private residential apartment buildings using ETABS.
- Prepared architectural and structural drawings using AutoCAD.
- Conducted on-site inspections during construction phases.
- Contributed to project planning and client coordination for private residential developments.

RESEARCH AND ACADEMIC PROJECTS

Undergraduate academic thesis

July 2024

"A Comprehensive Approach to Retrofitting RC Buildings Using Nonlinear Pushover Analysis"

- Conducted nonlinear pushover analysis on reinforced concrete structures to evaluate and compare retrofitting strategies.
- Applied performance-based seismic assessment methods to identify structural vulnerabilities and recommend intervention techniques.

Academic Project – CE412 Structural Engineering Lab II

June 2024

"Analysis and Design of a Multi-storied RC Building as per BNBC 2020"

- Designed a multi-storied RC building in full compliance with Bangladesh National Building Code (BNBC 2020).
- Performed gravity and lateral load analysis, irregularity checks, structural member checks and reinforcement detailing.

CONFERENCE PRESENTATIONS

8th International Conference on Engineering Research, Innovation and Education (ICERIE 2025)

April 2025

Presented a paper titled, "Comparison of Seismic Responses of RC Frame Structures for Varying Soil Conditions and Support Configurations"

TRAININGS & WORKSHOPS

Design of a 15 Storied RCC Building as Per BNBC 2020

May 2026

Duration: 3 months (February-May) | Conducted by: Professor Dr. Jahangir Alam & Engr. Md. Mahbub Ali
Organized by Qlearn.com.bd

Essential Course on BIM Modeling Using Revit (Architectural)

December 2025

Duration: 33-40 hours | Certificate No: AP703229098603955739318 | Conducted by: Engr. Hachnayen Ahmed
Organized by Cadd Core Training & IT Services (Autodesk Authorized Training Center)

Introduction to PPA-2006 & PPR-2008

July 2025

Duration: 10 hours | Conducted by: Engr. Muhammad Shafiqul Islam Khoka
Organized by Civil Engineering Division of The Institute of Engineers Bangladesh (IEB)

Key Concepts of Project Management & Their Application in Bangladesh

July 2025

Duration: 10 hours | Conducted by: Engr. Muhammad Abul Kawser
Organized by Civil Engineering Division of The Institute of Engineers Bangladesh (IEB)

Interpreting Foundation Design Parameters from Geotechnical Subsoil Investigation Report

October 2024

Duration: 3 hours | Conducted by: Engr. Mohammad Ashikur Rahman
Organized by Advanced Infrastructure Management (AIM)

TECHNICAL SKILLS

- ETABS 2022
- Autodesk AutoCAD 2025
- Programming language: C++, Python
- STAAD Pro V8i
- Autodesk Revit 2025
- Referencing Tool: Zotero

MEMBERSHIP & EXTRACURRICULAR ACTIVITIES

▪ Associate Member

The Institution of Engineers, Bangladesh
Membership No: A-27466

▪ Former President

ACI Student Chapter, UAP
From 2023-2024
Student Membership No: 2106448

▪ Executive Member

CE Math Club, UAP
From 2023-2024

ACHIEVEMENTS & AWARDS

Vice Chancellor's Meritorious Student Award in Spring 2020

Issued on August 2023

Awarded for academic excellence (GPA 3.90+/4.00) — University of Asia Pacific

2nd Place in Project Competition in Fall 2021

April 2022

Project Name: Amphibious House
Organized by Civil Engineering Structure Club of University of Asia Pacific

1st Place in AutoCAD Detailing Competition in Spring 2021

December 2021

Organized by Civil Engineering Structure Club of University of Asia Pacific

2nd Place in Presentation Competition in Spring 21

December 2021

Topic: Sustainable Utilization of Blended and Fly Ash Cement for Developing Concrete Structures.
Organized by Civil Engineering Structure Club of University of Asia Pacific.

Certified Supply Chain Analyst™ (CSCA™)

October 2021

Won 100% scholarship at the ISCEA PTAK Prize Global Supply Chain Case Competition, resulting in professional certification.

LANGUAGE PROFICIENCY

- **Bengali**
Proficiency: Native
- **English**
Proficiency: Proficient User (CEFR C1)
IELTS Band Score 7
